PERSONAL STATEMENT

I am a creative individual, with a genuine interest in VFX. Passionate and highly motivated graduate from Kingston University who is building a career as a freelancer in the fast growing VFX and media industry. Have successfully combined my studies with the working environment. Able to adapt quickly and positively to challenging situations whilst remaining calm and focused. Excellent communication and interpersonal skills and the proven ability to achieve targets either independently or as a member of a pro-active team. Mature person with an outgoing, friendly personality who enjoys the challenge of working under pressure.

PROFESSIONAL EXPERIENCE

↑ July 2015 - Present

3D GENERALIST & GRAPHIC DESIGNER (FREELANCER)

London

Multiple projects completed by myself to various clients and companies. Projects ranged from CG modelling, texturing, photorealistic rendering, compositing, creating motion graphics, designing logo, business cards, business stationery, webpages and app UI/UX. This required exceptional communication and management skills in order to deliver professional quality work to the customer's satisfaction.

VOLUNTARY EXPERIENCE

↑ October 2009 - October 2009

TEACHING ASSISTANT

John Chilton School, London

Worked with children with special needs which gave me valuable skills, such as working calmly under pressure and communicating effectively. Created alphabet posters for the class, translated younger children's poems into French and assisted the teacher in class by helping students with their classwork.
